

PRINCIPAL'S MESSAGE

Principal's Message

Namaskar!

It is with great warmth and heartfelt pride that I welcome you to our esteemed Nursing College — a sacred space where knowledge, service, and sanskar come together to shape the healers of tomorrow.

In our Rajasthani culture, we say “Seva hi Parmo Dharma” — Service is the highest duty. Nursing is one of the noblest professions, and here, we are committed to nurturing not just skilled professionals, but compassionate caregivers who serve with empathy and devotion.

Our college places a strong emphasis on practical skill development, so that our students are ready to face real-world challenges with confidence. Whether it is through hands-on clinical experience, modern simulation labs, or expert guidance, we ensure each student grows into a capable and confident nurse.

We also prepare our students for government job opportunities, helping them build a stable and respected career path. Special coaching, mentorship, and regular assessments are provided to guide them through competitive exams and interviews.

But education is more than textbooks and exams. We focus deeply on gaining true knowledge — knowledge that builds the mind, strengthens the heart, and uplifts the soul. Our students are encouraged to think, question, and grow every single day.

Being rooted in our culture and values, we also focus on the development of moral character and cultural beliefs. From celebrating festivals together to practicing humility, respect, and discipline, we instill sanskars that stay with our students for life. Rajasthan has a proud legacy of valor, dignity, and hospitality, and we hope to pass these values on to every student who walks through our doors.

Let us work together to shape a generation of nurses who not only treat illness but also bring healing through kindness, tradition, and integrity.

Dr Vijay Singh Rawat
Principal
Venkateshwar School &
College of Nursing
Sai Tirupati University
Umarda, Udaipur
