

EVENT COMPLETION REPORT

World AIDS Day Celebration & Poster Making Competition: *Awareness, Compassion & Public Health Responsibility*

Date: 03 December 2024

Time: 10.00 am onwards

Venue: VIPS Campus

Organised by: Venkateshwar Institute of Paramedical Sciences

1. Introduction

Venkateshwar Institute of Paramedical Sciences observed World AIDS Day on 3rd December 2024 with great enthusiasm, awareness spirit, and active student participation. The programme was organized to spread accurate knowledge regarding HIV/AIDS, promote preventive health practices, and address the myths, fear, and stigma often associated with the condition.

World AIDS Day is observed globally to unite communities in the fight against HIV, support people living with HIV, and remember those who have lost their lives to AIDS-related illnesses. It also serves as an important reminder that awareness, testing, timely treatment, and social inclusion remain essential in controlling the disease.

As future healthcare professionals, paramedical students must possess scientific understanding, empathy, and a sense of public responsibility toward communicable diseases and patient care. Recognizing this need, the institute organized an awareness celebration combined with a Poster Making Competition to encourage learning through creativity and expression.

The event focused on prevention strategies, modes of transmission, importance of early diagnosis, availability of treatment, and the need to eliminate discrimination against affected individuals. Through interactive activities and awareness messages, students were inspired to become advocates of health education and compassionate care.

2. Objectives

- To observe World AIDS Day and promote awareness about HIV/AIDS prevention and control.
- To educate students about modes of transmission, symptoms, testing, and treatment.
- To eliminate myths, fear, and social stigma associated with HIV/AIDS.
- To encourage empathy, equality, and non-discriminatory attitudes toward affected individuals.
- To inspire students to act as health ambassadors in their communities.
- To promote creativity and health advocacy through a Poster Making Competition.

3. Event Highlights

- The programme commenced with an introductory address by Ms. Vaidika Rathore, Event Coordinator, highlighting the global significance of World AIDS Day and the importance of collective awareness.
- Mr. Rajesh Choubisa, Vice-Principal, VIPS, addressed the gathering and motivated students to actively participate in spreading awareness and promoting compassion toward people living with HIV/AIDS.

Awareness Session Covered:

- Difference between HIV and AIDS
- Modes of transmission and preventive measures
- Importance of safe practices and responsible behaviour
- Role of testing, counselling, and early diagnosis
- Availability of treatment and quality of life with proper care
- Need to end stigma and social discrimination

Poster Making Competition

Theme: "Let Communities Lead – End Inequalities, End AIDS"

- Students enthusiastically participated by creating meaningful posters carrying messages of:
 - Prevention and awareness
 - Equality and inclusion
 - Community support
 - Empathy and hope
 - Youth responsibility in public health

Campus Awareness Activities

- Informative charts, banners, and awareness displays were placed across the campus.
- Students engaged in discussions on public health responsibilities and social sensitivity.
- The programme concluded with appreciation of participants and a group photograph session.

4. Outcomes

The event proved highly impactful and witnessed active participation from 50 students. Participants developed a deeper understanding of HIV/AIDS, including prevention methods, treatment possibilities, and the importance of timely testing.

The programme successfully corrected misconceptions and increased awareness about the fact that HIV/AIDS can be managed effectively with proper medical care and social support. Students also developed stronger empathy and respect for people living with HIV, helping promote a more inclusive mindset.

The Poster Making Competition encouraged creative learning, teamwork, and health communication skills. Through visual expression, students demonstrated their commitment to awareness generation and social responsibility.

For paramedical students, the programme was especially relevant as it connected medical knowledge with ethical conduct, counselling sensitivity, and public health outreach. Overall, the event strengthened awareness, compassion, and readiness among students to contribute positively toward disease prevention and stigma reduction.

5. Conclusion

The World AIDS Day Celebration & Poster Making Competition organized by Venkateshwar Institute of Paramedical Sciences was highly meaningful, educational, and socially relevant. The programme effectively combined scientific awareness with creative engagement, enabling students to understand both the medical and social dimensions of HIV/AIDS.

The event reinforced the importance of prevention, early diagnosis, treatment adherence, and community support in the global fight against HIV/AIDS. It also highlighted that compassion, equality, and dignity are essential in caring for affected individuals and eliminating discrimination.

By involving students in awareness activities and creative competitions, the programme inspired them to become informed healthcare professionals and responsible citizens who can lead positive change in society.

The event reflected the institute's dedication to holistic education, health promotion, and community-oriented learning. VIPS remains committed to organizing similar awareness programmes that strengthen knowledge, empathy, and public health responsibility among students.
