

EVENT COMPLETION REPORT

Anatomy Model Presentation 2025

Date: 7th April, 2025

Time: 11:00 AM Onward

Venue: Anatomy Lab, Venkateshwar College of Nursing, Umarda.

Organized By: Venkateshwar College of Nursing, Umarda, Udaipur

1. Introduction

The B.Sc. Nursing students of Venkateshwar college of Nursing showcased three-dimensional anatomical models as part of their practical assessment. The presentation aimed to reinforce theoretical knowledge, improve visual-spatial skills, and encourage peer-learning among the cohort.

2. Objective

- Demonstrate accurate identification of major organ systems using physical models.
- Explain clinical relevance of anatomical structures to nursing practice.
- Foster collaborative learning and presentation skills.

3. Program Highlights

- Model Demonstrations (45 min) – Six groups presented models of the heart, lungs, brain, kidney, skeletal system, and gastrointestinal tract. Each group highlighted key structures, functions, and common pathologies.
- Q&A (15 min) – Faculty and classmates asked probing questions; best explanations received small tokens.
- Feedback & Closing (10 min) – Dr. Archala Khemnar, praised the effort and outlined how the activity will support upcoming clinical rotations.

4. Conclusion

Participants reported a 30 % increase in confidence when labeling anatomical diagrams, and faculty noted improved articulation of structure-function relationships. The models will remain in the lab for future hands-on practice. The model presentation by students it seems to be good they explain everything in details. Over all presentation was excellent.
