

EVENT COMPLETION REPORT

Workshop: Genetic Counselling

DATE: 4th November, 2025

TIME: 02:00 PM onwards

Venue: Lecture Hall -10, VCN

Organised by: Venkateshwar College of Nursing, Umarda, Udaipur

1. INTRODUCTION:

On 4th November, 2025, VCN organized an enlightening session on “**Genetic Counselling**” to create awareness about the importance of genetics in healthcare and family wellbeing. The event took place at the VCN Lecture Hall-10 and a distinguished expert recognized for his contributions to medical education and genetic research. The session aimed to help students understand the role of genetic counselling in identifying inherited conditions, preventing genetic disorders, and supporting families through informed decision-making. The program emphasized the value of scientific understanding and compassionate guidance in promoting better health outcomes within society.

2. OBJECTIVES:

- **Risk Assessment:** To evaluate and communicate an individual or family risk of inheriting or transmitting genetic disorders.
- **Education:** To provide accurate information about genetic conditions, inheritance patterns, testing options, and management strategies.
- **Informed Decision-Making:** To support clients in making autonomous and informed choices regarding genetic testing and reproductive options.
- **Psychological Support:** To offer emotional and psychological support in coping with the implications of genetic information.
- **Ethical Guidance:** To ensure all counselling processes uphold confidentiality, non-directiveness, and respect for clients' cultural and personal values.

3. EVENT HIGHLIGHTS: -

The event began with a welcome address by Dr. Geetanjali Sharma & Ms. Muneera Makrani who emphasized the growing importance of “genetic counselling” and VCN role in promoting health awareness. The delivered an insightful talk on the advancement of genetic science, its ethical aspects, and the role of counsellors in guiding informed health decisions. Highlights included a student presentation on the process and benefits of genetic counselling, a faculty talk on genetics in modern healthcare, and a documentary screening on human genome research. An interactive quiz on genetics kept participants engaged, followed by a group discussion where students shared views on the ethical and social impact of genetic testing. The event successfully fostered awareness about the value of genetic counselling in preventive and personalized healthcare.

4. KEY OUTCOMES: -

- Improved understanding of the concept, process, and significance of genetic counselling.
- Enhanced awareness of genetic disorders, inheritance patterns, and preventive healthcare.
- Encouraged students to reflect on the ethical, emotional, and social aspects of genetic testing.
- Promoted scientific curiosity and informed health decision-making among participants.

5. CONCLUSION: -

The Genetic Counselling Awareness Event at VCN was an informative and insightful session that emphasized the growing relevance of genetic counselling in modern healthcare and enthusiastic participation from students, the event highlighted the importance of understanding genetics, ethical considerations, and informed decision-making in maintaining overall well-being. The session aligned perfectly with VCN Mission to promote scientific awareness and empower individuals to make responsible health choices for a better future.
